

Oishik Dutta

A skilled professional in Java, algorithms, and web development. With expertise in [data structures](#) and in [Machine Learning](#) and AI from Stanford, I create efficient solutions. Passionate about innovation and continuous learning, [user-friendly websites](#) excel in building . Let's collaborate and make a positive impact through high-quality software solutions.

SKILLS

Java

DSA

User Interface

Javascript

NodeJs

ReactJS

Work Experience

System Engineer(SDE - III)

Infosys

February 2023 - Present

- Effectively coded software changes and alterations based on specific design specifications.
- Worked to solve complex problems using the latest in Cloud, Mobile, and Web Technologies.
- Works as junior support based on MySQL, .net frameworks, and database management

Junior ETH Miner

Destiny Exchange

May 2023 - Present

As an ETH miner, I contribute to the security and decentralization of the Ethereum network, ensuring the integrity of transactions. Working as an intern at [Density Exchange](#), I'm gaining valuable hands-on experience in blockchain development and exploring the exciting potential of [decentralized finance \(DeFi\)](#). I'm thrilled to be part of a dynamic team that is shaping the future of finance through innovative blockchain solutions.

System Cloud DE

Adobe India

Feb 2022 - Jan 2023

Write and review engineering documents and **review specs** •
Work closely with core technology teams and other platform
teams to balance **crossplatform consistency** with platform
optimizations.

Education

Master in Computer Science and deep Learning

Newton School Of Technology

March 2021 - December 2022

necessary skills and theoretical foundation to tackle complex
problems and develop innovative solutions in **software
development, algorithms, data structures, and other critical
areas** of computer science. Your mastery of these subjects
positions you as a valuable asset in the tech industry.

Hons- Finance and Information technology

University Of Calcutta

Feb 2018 - Jan 2021

The dream campus of every Kolkatian, Completed Graduation
Under UC with the Aggregate of 70.12 Pertence

Technical Degree -VFX and Web Development

Ramakrishna Mission Slipamandira

June 2015 - Sep 2017

hand-on experience in Vectors and Raster Utilization, Learn
about key components of editing as well as vizulizing the
concepts.
